Environmental Boxes & Racks!

WE’LL GIVE YOU THREE GOOD REASONS TO SWITCH FROM QUART-CASED OILS TO 6 GALLON ENVIRONMENTALLY PACKAGED BAG-IN-BOX OILS!

- #1: **WASTE REDUCTION:** Reduction in plastic waste compared to plastic cased quarts of oils with 6 gallon bag-in-box packaging.
- #2: **INCREASED EFFICIENCY:** Easier dispensing without bulk storage; no need to open and pour each and every quart & when combined with a rack system, dispensing becomes even easier with multiple motor oils all available from the same rack. The environmentally packaged plastic bag-in-box takes up much less storage space than comparable quart cases, allowing for a more diverse supply of motor oils.
- #3: **INCREASED PROFITS:** Most bag-in-box products are cheaper than equal number of quarts-in-case, saving you money and putting more profit back in your pocket!

HYBRID BLADES

High quality hybrid performance at competitive prices.

Fits same applications as the beam blade and includes an adapter for Audi/VW applications.

- Multi-fit connector technology
- Molded natural rubber squeegee resists wear cause by weather conditions, or washer fluids and other elements
- Soft cover hybrid blade that offers the appearance of a beam blade
- Aerodynamic spoiler designed for smoother wipe at high speeds

WIPER BLADES

Rain-X Latitude®

Wiper Blade Product Features:

- Virtually streak-free visibility – in rain, sleet and snow
- Smooth, chatter-free wipe – as a result of the specially blended graphite coated rubber blade
- Enhanced flexibility & grip – from the durable, rubber-encased substructure
- Significant noise reduction & wind lift – through a built-in aerodynamic spoiler
- All weather tough – with a synthetic rubber squeegee that will withstand extreme weather conditions
- Prevents ice and snow build-up – through the elimination of exposed metal components
- Easy to install – pre-installed with small j-hook adapter & contains multi-adapter for side pin, large j-hook, bayonet, I&L & PTB wiper blade arms

- Helps reduce engine wear & promotes longer engine life
 - Exclusive Synthetic blended Two-ply gradient density filter media removes 99% of engine oil impurities & traps up to 36 grams of contaminant based on industry tests
 - So good it meets or exceeds proposed industry specifications for capacity and efficiency #.

PART # 36	TF1129A	TF1147	TF1208
TF1030	TF1135	TF1205	
TF1037	TF1146	TF1206	

The image is a horizontal advertisement for Service Pro fuel filters. On the left, there is a logo for "SERVICE PRO Professional Products" with a stylized swoosh. To the right of the logo is a table with 6 columns and 10 rows. The first row of the table is a header with the text "FUEL FILTER" in large, bold, white capital letters on a black background. The subsequent rows list various part numbers under the heading "PART #(36)". The first column of the table contains the "SERVICE PRO" logo. The remaining five columns contain part numbers: FG986, GF61PL, GF1578, GF7750, and TD10571 in the first row; and FD4606, GF991, GF471, GF1580, GF7751, TD10591 in the second row, and so on. To the right of the table is a large, detailed image of various Service Pro fuel filters. This image includes a white plastic fuel filter housing, a black box labeled "SERVICE PRO CABIN AIR FILTER", a white box labeled "SERVICE PRO OIL FILTER", and several cylindrical oil filters of different sizes. The background of the entire advertisement is black.

A collection of Service Pro automotive filters. On the left is a white plastic fuel filter housing. Next to it is a black box for a "SERVICE PRO CABIN AIR FILTER" with the part number MC35667. To the right of the cabin air filter box is a white box for a "SERVICE PRO OIL FILTER" with the part number MC35667. Further right are several cylindrical oil filters of different sizes, some in their original packaging and others without. The background is dark and slightly blurred.

MOTOR TREATMENT

THE CAN FOR EVERY ENGINE.

Cleans fuel injector and carburetor passageways

Cleans intake valve and chamber deposits
Lubricates upper cylinders

Works in crankcase oil to liquefy harmful residues & deposits

Stabilizes gas & diesel fuels up to 2 years
For any gas or diesel fuel blend

For all motor oils, conventional and synthetic

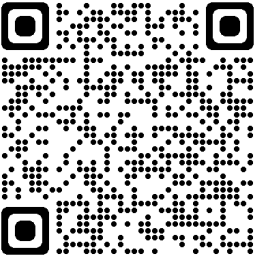

COMPLETE MARINE FUEL SYSTEM TREATMENT

- Cleans and lubricates entire fuel system
- Reduces long-term engine wear
- Helps protect against corrosion caused by ethanol & water
- Stabilizes tank fuel up to 2 years

LUCAS OIL®

HEAVY DUTY OIL STABILIZER

Increase oil life at least 50% longer
Reduces oil consumption
Eliminates dry starts
Raises oil pressure
Increases power and miles per gallon

OCTANE BOOSTER

Enhance vehicle performance with the only octane booster that is tested and proven to deliver up to three times more octane boost than competing brands.

Higher octane means no knocking, pinging or detonation

Protect your engine while under extreme stress. Maximum life and performance from pumps, injectors and carburetors.

Clean burning "Smokeless"

Mixes well with gasolines at all temperatures

Meets requirements for "low smoke" oils

Low Ash

SPOTLIGHT FUEL TREATMENT

It doesn't matter if you call it a fuel treatment, upper cylinder lubricant, injector cleaner, or fuel conditioner, Lucas Fuel Treatment is formulated for both gasoline and diesel engines, carbureted or fuel injected.

1 Gallon/128oz Bottle - One bottle treats up to 400 gallons of fuel. It gives your fuel system what it needs - a blend of slick lubricants and additives with a high detergent action that allows the vehicle to operate at full efficiency.

Kooler Klean™ Transmission Cooler & Line Flush

#09-19001

LUBEGARD Kooler Klean Trans Flush uses a proprietary mix of detergents to safely clean transmission lines in automatic, CVT, DCT and manual transmissions. This product works without any water to remove grease, dirt, grime, and metal shavings that can clog up the lines. And it inhibits their return. Because of its unique solvent formulation, it will not degrade new automatic transmission fluid. The safest, most complete Transmission Cooler Line Flush available!

Automatic Transmission Fluid Protectant with LXE® Technology

#09-60902

LUBEGARD® Synthetic Automatic Transmission Fluid Protectant is engineered to raise the thermal and oxidative stability level of automatic transmission fluids, so when it operates at elevated temperatures, it does not thin out and pyrolyze, burn, or react with oxygen and form deposits.

Automatic Transmission Fluid Protectant with LXE® Technology

#09-61910

LUBEGARD® Highly Friction Modified (HFM) Automatic Transmission Supplement contains a concentrated additive package with additional friction modifiers that can be safely added to any ATF (except CVT, DCT, and Ford Type F [1986 and earlier models]) including full synthetic, semi-synthetic, and conventional fluids to eliminate severe torque converter lock-up shudder and soften harsh shifts.

STARTING FLUID

Service Pro® Starting Fluids are formulated for use in diesel or gasoline engines and for use in cars, trucks, tractors, generators, buses, marine engines, outboards or power motors.

#91-5315

Cleans Injectors & Intake Valves
Reduces Emissions & Smoke
Treats Up to 750 gal. per 64 oz.

MELT DOWN

Specifically formulated to dissolve gelled fuel back into solution and return the flow in approximately 20 minutes. Emergency fuel treatment only.

Diesel Treat Conditioner Plus Anti-Gel

- PREVENTS DIESEL FUEL FROM GELLING.
- Safely removes water from diesel fuel.
- Contains no alcohol or other harmful solvents.
- Increases power and fuel economy.
- Cleans and lubricates fuel injectors.
- Eliminates smoking and rough idle.
- Safe and effective in all diesel and biodiesel blends to B-20.

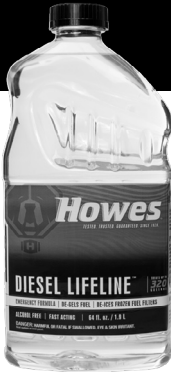

6/64 OZ. ~ #47-H103060

Diesel Lifeline

Designed to deal with emergencies caused by the toughest winter weather, Diesel Lifeline™ is a fast acting product that works to re-liquefy gelled fuel and de-ice frozen fuel filters. Howes Diesel Lifeline is the only product that requires no mixing or fuel filter change and works to -35°F and beyond.

#47-H103092

HOWES
TESTED. TRUSTED. GUARANTEED. SINCE 1920.

The best cold weather protection available.

Lowers the Cold Filter Plugging Point by up to 20 degrees or more. Increases fuel economy- reduce the requirement for blended fuel, which has lower BTU content. Prolongs fuel filter life. Reduces contaminants and safely, controls water. Non-Alcohol formula is safe to use in all weather conditions. Flows at -20° allowing you to store additive outside. Superior cold weather protection Winter Treat Plus contains an advanced wax crystal modifier that prevents filter plugging at lower temperatures.

FLASHERS

PART #	DESCRIPTION
BP5520	FLASHER

WHILE SUPPLIES LAST
LIMITED QUANTITY AVAILABLE

R1080Plus

The R1080Plus can be used with any four post or scissor lift. Its portable aligner console provides the ultimate convenience because you can position it anywhere within the bay—which means you don’t need a dedicated bay to use the machine. And the Bluetooth transmission between the front measuring heads and the control unit maximizes workspace because of its lack of obstacles and obstructions.

ROTARY 4 POST
DRIVE ON

- 14,000 lb. Capacity, ALI Certified
- 158” or 182 wheelbase optional rolling jacks open frame or alignment ready units available

FORWARD F10
TWO POST LIFT

- 10,000 lb. Capacity
- 3-stage front arms with greater range to pick up almost any vehicle

LIFTS STOCKED AT
BILLINGS, BOISE & PORTLAND
WAREHOUSES

R146RP Super

The hand-controlled R146RP SUPER includes an air-driven PLUS91SA HELPER ARM. This bead top pressing and tire lifting device for large and special tires feature a lower bead lifting roller and pneumatic top bead pressing tool.

RAASM Series 238 3:1 Pump

FEATURES:

- Bung Adapter
- Air inlet connection 1/4" NPT
- Cycles per gal ~ 102.3

COMPATIBLE FLUIDS:

- Low & Medium Viscosity Fluids

#35-3556155

RAASM Series 430 Oil Reel

FEATURES:

- 1/2" NPTF inlet
- 1/2" NPTF outlet
- 50' Delivery hose
- 2,000PSI

COMPATIBLE FLUIDS:

- Oil

#35-843040255

GRACO 5:1 FIRE-BALL STUB PUMP

#35-203876

Features:

- Non-corrosive design.
- No metal-to-metal contact for longer pump life.
- Double-acting pump provides reliable fluid flow.
- 500 ft. Range

Fluids Handled:

- Motor Oil
- Synthetic Oil
- Gear Oil
- Hydraulic Oil
- Automatic Transmission Fluid

GRACO 16-Quart Mechanical Meter w/Flex Nozzle

Ideal for indoor or outdoor use in all size shops
